

Don't Chew on This...

Not all pet dental products are created equal, and some can even damage your pet's teeth or worse.

Here are some common products and the possible problems they can cause.

Painful or Broken Teeth

- Bones*
- Sticks
- Rocks
- Yak milk chews
- Antlers
- Rawhides

Vomiting and Diarrhea

- Hooves
- Pig ears
- Bull penises (Bully stick)

- Bones*
- Rocks
- Toys

Intestinal Blockage

But, wait! There's good news!

Here's how you can choose your pet's dental products wisely:

- Select a chew treat that has received the Veterinary Oral Health Council (VOHC) Seal of Approval.
- Offer healthy, crunchy, edible snacks like carrots, green beans, or apple slices.
- Use puzzle toys that require your dog to push or paw for kibble to fall out.
